

If you can't tell which type of metal it is you can't weld it correctly.

High strength steel?
Mild steel?

Ultra high strength steel?
Aluminium?

Bake hardened steel?
Dual phase steel?

Press hardened steel?
Magnesium?

Isotropic steel?
Carbon-manganese steel?

Unfortunately, accidents happen, When they do, don't let someone else decide the quality of your repairs, You can be assured that all Vauxhall technicians are all fully trained to the highest standard with the latest technology to assess and restore your Vauxhall to its original condition, Keep your Vauxhall the way it was built and choose a Vauxhall Approved Bodyshop.

Always insist on an Approved Bodyshop and genuine parts.

If it's not repaired at a Vauxhall Approved Bodyshop can you really be sure?
